The notation 'UoB' indicates a photograph has been sourced from Historical Photographs of China, University of Bristol ([www.hpcbristol.net](http://www.hpcbristol.net)).

This edition published 9 December 2023

This list was first published in Dick & Kentwell, *Beancaker to Boxboat* (NAA, 1988) and has been revised and updated in early 2020 in reference to sources that have since become available. Month of completion (where known), yard numbers and engine details have been added according to LR. We have cross-checked entries against Miramar as well as Clydeships and other regional British shipbuilders websites and acknowledge their excellent compilations but where differences arise, we believe our version to be the more accurate.

Low-resolution images have been added for research purposes from a wide variety of sources. Where identification is still doubtful, we have indicated this and would welcome further information and comment. We will watermark any of these images on request but observe that it is only by so collating many images that identifications can be confirmed with due regard for different angles, seasonal variation (awnings, etc.), and profile changes over time.

China Merchants' ships' names were in most cases two characters and where known are given below. Their translation into English was according to the custom of the time. For example, in the 19th century 海 ('sea') was written 'Hae', in the 20th century as 'Hai'. Whether the English name was spelled as one word, two words or hyphenated was arbitrary and varied between LR, advertisements and the daily press, also over the life of the ship. We have followed the usage of LR unless we believe a variant to be more appropriate. *Aden* and *Irene* were given character names of similar pronunciation but continued to sail under their original English ones.

**ADEN 伊敦** (1872-75) 800/56-8 (i.p.s. 257.6 x 29.8', 2cy d.a., geared trunk engine/954 ihp, 12k) Launched by Summers, Day & Co., Northam, Southampton for Peninsular & Oriental S.N. Co., London as DELTA but completed as ADEN and taken up as Crimean War transport. 1857 placed in Bombay-Hong Kong line. 1858 to China Coast. 11/72 sold for £15,000 to Prefect Chu, Shanghai prior to t/f to CMSNC r. 伊敦 (Yī dūn). 29/6/75 arrived at Shanghai and laid up. Late-1875 conv. to hulk for use at Kiukiang. c.3/78 conv., to barge for carriage of timber logs and towed to Tientsin. Used as

lighter outside bar at Taku until 9/3/79 rolled over and sank with death of 52 Chinese stevedores.

[No confirmed illustration of ADEN is known to exist. The lithograph shown at the official P&O website

<http://www.pandosnco.co.uk/ssaden.html> appears to be in error for DELTA of 1859. The photograph of 'ADEN' shown in the CMSNC section of the China Steamships Museum website at <http://60-250-180-26.hinet-ip.hinet.net/theme/theme-41/41-index.html>

appears to be an early view of one of the much larger P&O 'Jubilee' quartet of 1887-88. This photograph has been replicated in a model and paintings at the CMSNC Museum. ADEN would not have had a straight stem or four masts.]

**YUNGCHING** 永清 (1872-03) 761/72-5 (i.s.s. 230.7 x 30.0', C2cy/125 hp)

Built by Humphrys & Pearson, Hull (#21) for Liverpool Stm Shg Co., Liverpool as DAYBREAK.

Late-1872 sold to CMSNC and 3/73 in service as YUNGCHING. Winter 1887/8 reboilered. 1894 t/f to E.L. Mendl, Trieste r. PING-YI. 1895 reverted to CMSNC as YUNGCHING. 1900 t/f to British flag to S.C. Farnham & Co. Ltd, Shanghai reg. owner r. DAYBREAK. 1901 reverted to CMSNC as YUNGCHING. 3/1/03 arrived at Shanghai and laid up. 3/03 conv. to hulk.

**FUSING** (1872-75) 876/71-8 (i.s.s. 202.3 x 31.8', C2cy/104 hp, Walker, Henderson & Co. Ltd., Port Glasgow)

Built by Wm Hamilton & Co., Port Glasgow (#14) for John Child & Henry Mills, Manchester. as PRECURSOR. 12/72 Child Mills & Co. bankrupt, sold same month via Ellis Elias, London & China to CMSNC and 4/73 in service. 5/73 r. FUSING. 4/4/75 o/v Shanghai-Chefoo sank in collision with *Ocean* (1486/74, owner Peter Denny) 230 m. S. of Shantung Promontory with loss of 55 lives. Although Lloyds used the term "run down" in FUSING's loss, the court of inquiry in Singapore decided that both parties were at fault by failing to reduce speed in the conditions. [Clydeships]

**LEE YUEN** 利遠 (1872-84, 1894-03) 1080/72-12 (i.s.s., 231.8 x 29.3', C2cy/100 hp)
